General terms and conditions of the Customer do not apply, even in the event of a previous reference.
2. In these terms and conditions of delivery, the following terms shall have the following meaning:
 - Machinefabriek Bolier B.V.: the party that refers to these conditions in its offer(s), agreements and website, among other things.
 - Customer: the other party to Machinefabriek Bolier B.V.

Article II - Offer

1. All offers made by us are without obligation.
2. If the Customer provides us with documents and data relevant to the offer, we may assume the accuracy of these documents and data and shall base its offer on thereon.

Article III - Agreement

1. If the agreement is entered into in writing, it shall be concluded on the day that the agreement is signed by both parties, or on the day that we send the written order confirmation, as the case may be.
2. Verbal promises, agreements or other (legal) acts are only binding if confirmed by us in writing.

Article IV - Price

1. Unless expressly stated otherwise, a stated or agreed price does not include VAT or any other (government) levy due in connection with the agreement and, if we are responsible for the transport of products, also does not include the costs of packaging, transport and insurance. We shall charge the costs referred to in the previous sentence separately and in full.
2. If, after the date of conclusion of the agreement, one or more of the cost price factors is subject to an increase, including a depreciation of the agreed currency against the Euro, even in the

Article V - Drawings, calculations, descriptions, models and tools etc.

2. Offers, budgets, plans or other documents issued as well as drawings, calculations, software, descriptions, models and products as well as tools and equipment, etc. produced or provided by us shall remain inalienable property, regardless of whether any costs have been charged for them. The Customer guarantees at all times that the information provided by us shall only be used in connection with the agreement and that it shall not use it in any way contrary to the intellectual property rights of us or of third parties.
3. Customer shall indemnify us against all direct and indirect damage as a result of claims by third parties on account of violation of the rights referred to in the previous paragraph.
4. We shall provide the Client with manuals and/or instruction manuals in English with information on the construction, operation and handling of the products delivered. If available, we may also provide such documents in the Dutch language.

 - c. the day of completion of the formalities necessary for the commencement of the work;
 - d. the day on which we receive the agreed advance payment. If a delivery date or week has been agreed, the delivery time is the period between the date of completion of the agreement and the delivery date or week.
3. The delivery time is based on the working conditions applicable at the time of the conclusion of the agreement and on the timely delivery of the materials ordered by us for the execution of the agreement. If a delay occurs outside our fault as a result of a change in the aforementioned working

conditions or because materials ordered for the execution of the agreement are not delivered on time, the delivery period shall be extended insofar it is necessary.

4. The product shall be deemed to have been delivered if it has been made available to the Customer by transfer of ownership, or can at least be placed under the latter's control and the Customer has been notified thereof, without prejudice to our obligation to comply with any assembly or installation obligations. Unless expressly agreed otherwise, delivery shall take place DAP or FCA, according to the latest INCOTERMS version.
5. Without prejudice to the provisions of this Article VI, the parties may agree that we, at the expense and risk of the Customer, shall arrange for the transport of the products to an address to be designated by the Customer.
6. Notwithstanding the provisions elsewhere in these terms of delivery regarding the extension of the delivery time, the delivery time shall be extended by the duration of the delay which we have suffered or will suffer as a result of the Customer's failure to comply with any obligation or cooperation ensuing from the agreement.
7. Exceeding the agreed delivery time - for whatever reason - does not entitle the Customer to dissolve the agreement in whole or in part or to perform work or have work performed to implement the agreement.
8. Unless explicitly agreed otherwise, a contractual penalty for exceeding the delivery time will replace any right of the Customer to compensation. Such a penalty is not due if the exceeding of the delivery time is the result of force majeure or circumstances on the part of the Customer.
9. If the Customer refuses to take delivery of the products offered to him, all resulting costs (including freight and storage costs) will be for his account.
10. In the event of cancellation of the agreement, the Customer shall immediately owe 20% of the agreed price (including VAT), without prejudice to our right to demand full compensation from the Customer for the damage suffered as a result of the cancellation, in addition to this contribution to the costs.

 - h. at the start of and during the assembly or installation, all required products are present in the right place.
4. Damage and costs incurred as a result of the conditions set out in this article not being met or not being met on time will be for the Customer's account.
5. Article VI shall apply with regard to the assembly/installation time.
6. We shall at all times have the right to have the agreement executed in full or in part by third parties.

3. If, in the event of overdue payment, collection is effected by judicial or other means, the amount of the claim shall be increased by 10% administrative costs, while the judicial and extrajudicial costs shall be borne by the Customer to the extent that the amounts paid or owed by us, without prejudice to our other rights on the basis of the law or the agreement.
